Bob,

Attached is the Gil Ramirez Group's JOC Contract Attachment B. Note Paragraph 3.9 which states, "In the event HISD does not issue a Job Order after receipt of Contractor's proposal, HISD is not obligated to reimburse the Contractor for any costs incurred in the preparation of the proposal."

I think that says it all. The problem is that the Bond office should be instructing the replacement JOC contractor to do their own scope and proposal. I hope that is the case. If I were a contractor, I would not rely on someone else's scope and numbers.

I hope this helps finalize this issue.

John
